Subject: FYI

April,

Last week Thursday or Friday I was having a conversation with Dr. Woods at the nurse's station when she mentioned that she has had conversation with the state rep. who lives here in Marshal county about something's that have been going on with security, such as not having enough staff to bring patients. She stated that the rep. drove through the parking lot once before and he had an issue with the number of cars or lack of cars in the parking lot.

On yesterday during the Warden's meeting he made reference to the state rep driving through the parking lot counting cars. This caused me great alarm as I knew Dr. Woods had just made this statement to me about knowing the state rep, and that he lived in Marshal County and that he drove through the parking lot after she talked to him about what she didn't like here. She also stated that she and former Deputy Warden Doty used to be at odds because she would call the state rep about things that went on at MCCF when Doty was here.

I think that it's my duty to let you know what's going on and I'll wait further instructions

v/r
